

# SAFETY DATA SHEET

According to Safe Work Australia

Revision: May 10 2021

## 1 . IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

**Product Name:** GAS LEAK TEST SOLUTION

**Other Means of Identification:** Mixture

**Recommended Use of the Chemical and Restriction on Use:** Food grade detergent for the checking of gas/air leaks

**Details of Manufacturer or Importer:**

Bracton Industries (NSW) Pty Ltd  
50 Chard Rd  
Brookvale NSW 2100

**Phone Number:** 02 9938 1800

**Emergency telephone number:** National Poison Information Centre: 13 11 26

## 2 . HAZARDS IDENTIFICATION

**Hazardous Nature:**

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

The product is not classified according to the Globally Harmonised System (GHS).

**Signal Word** Void

**Hazard Statements** Void

## 3 . COMPOSITION AND INFORMATION ON INGREDIENTS

**Chemical Characterization:** Mixtures

**Description:** No reportable hazardous substances or complex substances.

**Hazardous Components:** Void

**Additional information:** This product is a dilute solution of an amphoteric biocide, CAS No. not supplied.

## 4 . FIRST AID MEASURES

**Inhalation:** If inhaled, remove to fresh air. Seek medical attention if breathing problems develop.

**Skin Contact:**

In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur.

**Eye Contact:**

In case of eye contact, hold eyelids open and rinse with water for at least 15 minutes. Seek medical attention if symptoms occur.

**Ingestion:**

If swallowed, do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention if symptoms occur.

**Symptoms Caused by Exposure:**

**Inhalation:** Inhalation is unlikely. Inhalation of aerosols may cause chemical pneumonitis, irritation of the lungs and pulmonary oedema.

**Skin Contact:** May cause mild skin irritation.

**Eye Contact:** May cause mild eye irritation.

**Ingestion:** May cause gastrointestinal irritation. Aspiration during swallowing or vomiting may cause chemical pneumonitis and pulmonary oedema.

Revision: May 10 2021

Product Name: GAS LEAK TEST SOLUTION

(Contd. of page 1)

## 5 . FIRE FIGHTING MEASURES

**Suitable Extinguishing Media:** Water fog or fine spray.

**Specific Hazards Arising from the Chemical:**

Hazardous combustion products include oxides of carbon and nitrogen and water vapour.  
Product is not flammable.

**Special Protective Equipment and Precautions for Fire Fighters:**

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

## 6 . ACCIDENTAL RELEASE MEASURES

**Personal Precautions, Protective Equipment and Emergency Procedures:**

Wear approved respiratory protection, chemical resistant gloves, protective clothing and safety boots. Evacuate all non-essential personnel from affected area. Do not breathe vapours. Ensure adequate ventilation.

**Environmental Precautions:**

In the event of a major spill, prevent spillage from entering drains or water courses.

**Methods and Materials for Containment and Cleaning Up:**

Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal. Small spills can be mopped up, diluting with plenty of water.

## 7 . HANDLING AND STORAGE

**Precautions for Safe Handling:**

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapours. Use only outdoors or in a well-ventilated area.

Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

**Conditions for Safe Storage:**

Store in a cool, dry and well ventilated area out of direct sunlight. Keep container tightly closed when not in use. Protect containers from physical damage. Keep away from oxidising agents, strong acids and bases.

## 8 . EXPOSURE CONTROLS AND PERSONAL PROTECTION

**Exposure Standards:**

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

**Engineering Controls:** Ensure adequate ventilation of the working area.

**Respiratory Protection:**

Use an approved vapour respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentrations of mist or vapour, inadequate ventilation, development of respiratory tract irritation) and engineering controls are not feasible. See Australian Standards AS/NZS 1715 and 1716 for more information.

**Skin Protection:**

Rubber or plastic gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information. When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Occupational protective clothing (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the

frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing). See Australian/New Zealand Standard AS/NZS 4501 for more information.

**Eye and Face Protection:**

Eye and face protectors for protection against splashing materials or liquids. See Australian/New Zealand Standard AS/NZS 1337 for more information.

### 9 . PHYSICAL AND CHEMICAL PROPERTIES

**Appearance:**

|   |  |
|---|--|
| <b>Form:</b>                                    | Liquid                                 |
| <b>Colour:</b>                                  | Clear, almost colourless               |
| <b>Odour:</b>                                   | Characteristic                         |
| <b>Odour Threshold:</b>                         | No information available               |
| <b>pH-Value:</b>                                | 7.7 - 8.7                              |
| <b>Melting point/Melting range:</b>             | ~0 °C                                  |
| <b>Initial Boiling Point/Boiling Range:</b>     | 100 °C                                 |
| <b>Flash Point:</b>                             | Not applicable                         |
| <b>Flammability:</b>                            | Product is not flammable.              |
| <b>Auto-ignition Temperature:</b>               | Not applicable                         |
| <b>Decomposition Temperature:</b>               | No information available               |
| <b>Explosion Limits:</b>                        |  |
| <b>Lower:</b>                                   | No information available               |
| <b>Upper:</b>                                   | No information available               |
| <b>Vapour Pressure at 20 °C:</b>                | 23 hPa                                 |
| <b>Density at 20 °C:</b>                        | 1 g/cm <sup>3</sup>                    |
| <b>Vapour Density:</b>                          | No information available               |
| <b>Evaporation Rate:</b>                        | No information available               |
| <b>Solubility in Water:</b>                     | Miscible with water in all proportions |
| <b>Partition Coefficient (n-octanol/water):</b> | No information available               |
| <b>Viscosity:</b>                               | No information available               |
| <b>% Volatiles by Volume:</b>                   | >95 % (as water)                       |
| <b>VOC:</b>                                     | None                                   |

### 10 . STABILITY AND REACTIVITY

**Possibility of Hazardous Reactions:** Hazardous polymerisation will not occur.

**Chemical Stability:** Stable at ambient temperature and under normal conditions of use.

**Conditions to Avoid:** No further relevant information available.

**Incompatible Materials:** Oxidising agents, strong acids and bases.

**Hazardous Decomposition Products:** Oxides of carbon and nitrogen and water vapour.

### 11 . TOXICOLOGICAL INFORMATION

**Toxicity:****LD<sub>50</sub>/LC<sub>50</sub> Values Relevant for Classification:**

For the amphoteric biocide:  
LD50 (oral) 4500 mg/kg (rat)

**Acute Health Effects****Inhalation:**

Inhalation is unlikely. Inhalation of aerosols may cause chemical pneumonitis, irritation of the lungs and pulmonary oedema.

(Contd. on page 4)

**Skin:** May cause mild skin irritation.**Eye:** May cause mild eye irritation.**Ingestion:**

May cause gastrointestinal irritation. Aspiration during swallowing or vomiting may cause chemical pneumonitis and pulmonary oedema.

**Skin Corrosion / Irritation:** Based on classification principles, the classification criteria are not met.**Serious Eye Damage / Irritation:** Based on classification principles, the classification criteria are not met.**Respiratory or Skin Sensitisation:** Based on classification principles, the classification criteria are not met.**Germ Cell Mutagenicity:** Based on classification principles, the classification criteria are not met.**Carcinogenicity:** This product does NOT contain any IARC listed chemicals.**Reproductive Toxicity:** Based on classification principles, the classification criteria are not met.**Specific Target Organ Toxicity (STOT) - Single Exposure:**

Based on classification principles, the classification criteria are not met.

**Specific Target Organ Toxicity (STOT) - Repeated Exposure:**

Based on classification principles, the classification criteria are not met.

**Aspiration Hazard:** Based on classification principles, the classification criteria are not met.**Chronic Health Effects:** Repeated or prolonged exposure may cause skin and eye irritation.**Existing Conditions Aggravated by Exposure:** No information available**Additional toxicological information:** No information available

## 12 . ECOLOGICAL INFORMATION

**Ecotoxicity:** Harmful to microorganisms.**Aquatic toxicity:** No further relevant information available.**Persistence and Degradability:** No further relevant information available.**Bioaccumulative Potential:** No further relevant information available.**Mobility in Soil:** This product is readily transported by water.**Other adverse effects:** No further relevant information available.

## 13 . DISPOSAL CONSIDERATIONS

**Disposal Methods and Containers:** Dispose according to applicable local and state government regulations.**Special Precautions for Landfill or Incineration:**

Please consult your state Land Waste Management Authority for more information.

## 14 . TRANSPORT INFORMATION

**UN Number** Not regulated**Dangerous Goods Class** Not regulated**Packing Group:** Not regulated

## 15 . REGULATORY INFORMATION

**Australian Inventory of Chemical Substances:**

7732-18-5 | Water
