

Rejuvenator

Kills barflies and mould under the bar and in the cellar.

Behind the bar, is generally where unpleasant and foul odours can arise. Bracton Chemicals Rejuvenator kills pungent odours, prevents the growth of mould and interrupts the breeding cycle of barflies. Bracton Chemicals Rejuvenator should be applied every 4 weeks as part of a treatment plan.

- Absorbs odours.
- Kills bacteria, mould and fungus.
- Reduce bar flies.
- Protects for up to 4 weeks.
- Made from natural ingredients.
- Made in Australia.
